About Pipeline Therapeutics

Pipeline Therapeutics is a clinical-stage biopharmaceutical company pioneering the development and commercialization of first-in-class therapies for precision neuroregeneration including myelin restoration, synaptogenesis and axonal repair. The Company has a broad pipeline of programs to address multiple CNS disorders. In April 2023, Pipeline announced that it entered into a global license and development agreement with Janssen Pharmaceutica NV (Janssen) for its lead program, PIPE-307, a highly selective M1 antagonist, in nervous system disorders. The Company's second program, PIPE-791, an LPA1 receptor antagonist, has completed IND-enabling studies and is advancing toward clinical development for remyelination and neuroinflammation.
